AWS (S3, CloudFront, Route 53, ACM, EC2, AWS CLI), NGINX, PM2, Certbot, Linux/Ubuntu, DNS, Squarespace DNS, Google Cloud
MongoDB, MySQL, NoSQL, DBEaver, Jest, Postman, Git, GitHub, npm, Jira, ClickUp, Figma, Canva

CORE SKILLS

Customer Service Excellence, Growth Mindset, Multitasking, Problem Solving, Collaboration, Creativity, Time Management, Communication Skills, Attention to Detail, Client Consultation and Communication, Product Knowledge

TECHNICAL PROJECTS

[see github.com/trangmtruong for all technical projects]

RELEVANT EXPERIENCE

PROJXON — Web Developer Intern | momentuminternshipprogram.com | github.com/trangmtruong/MIP-site

June 2025-Present

- Designed and built the Momentum Internship Program website with React, TypeScript, and TailwindCSS, leading the website design. Primary site for intern recruitment, business development, and university partnerships.
- Implemented email flows with Nodemailer and OAuth2.0, tested API routes via Postman and OAuth Playground, and managed credentials in Google Cloud.
- Deployed the app on AWS, frontend on S3/CloudFront (OAC, cache headers, CLI invalidations), custom domain & TLS via Route 53 + ACM with Squarespace as the registrar/DNS editor, backend on EC2 (Ubuntu) with PM2 + Nginx secured by Let's Encrypt, Elastic IP attached, and releases automated with the AWS CLI.
- Collaborated with UX/UI designer and marketing team in an agile setup using ClickUp and Discord, sharing ideas and progress in weekly standups.

DROPS Externship — Software Engineer Extern

April 2025-June 2025

- Contributed to a diabetes-focused health tracking app that monitors glucose, activity, mood, diet, and medication using React, TypeScript, TailwindCSS, Vite, and GraphQL
- Built reusable UI components with Storybook and Headless UI, supported backend integration with Keystone, DBEaver, MySQL, and GraphQL Codegen, while worked in an agile environment with Jira

WTWR (What to Wear) — Software Engineer Student | w2w.crabdance.com | github.com/trangmtruong/se_project_react

April 2024-November 2024

- Built a React + Vite frontend for wardrobe management and user auth, including account creation and login/logout, implementing Figma designs with a responsive UI.
- Developed a Node.js + Express REST API with MongoDB for auth and CRUD, added centralized error handling middleware, and wrote automated tests in Jest covering unit, test suites, and database.
- Integrated a weather API for dynamic outfit filtering based on real-time temperature, and deployed both frontend and backend on Google Cloud using PM2 for process resilience, Nginx as a reverse proxy, Certbot (Let's Encrypt) for automated SSL provisioning/renewal, and validated endpoints with Postman.

Code Jams: Be Cool About Wildfires & Cocktail Chronicles — Software Engineer Student | see github.com/trangmtruong

July 2024 & January 2025

- Won first place for both projects, judged by industry professionals, building front end apps with HTML, CSS, and JavaScript.
- Delivered responsive UIs with dark and light modes and CSS animations; created branding assets in Canva.
- Strengthened team communication, creative problem-solving, and UI design under tight deadlines.

TripleTen Software Engineer Professional Training — Software Engineer Student

2023-2025

- Completed 740+ hours of hands-on coding in full-stack web development, including CSS, JavaScript, and the MERN stack
- Developed responsive landing pages and full-stack web apps from scratch, ensuring seamless adaptability across devices
- Strengthened technical and soft skills through projects simulating real-work environments, enhancing problem-solving, teamwork, and adaptability

EXPERIENCE

TT's Glow Bar — Owner/ Head Esthetician/ Software Engineer | trangmtruong.github.io/tt-glow-bar-frontend

2020-Present

- Designed, built, and maintained a responsive client booking website using React.js, integrating Google Calendar for real-time appointment scheduling and Google Maps to display service location
- Managed the business's Instagram and social media presence, developing original content and visual assets to promote services and drive traffic to the booking platform
- Assisted in an advanced eyelash extension masterclass hosted by BeautyRaena, a seven-figure beauty entrepreneur, and currently serve as an elite ambassador for the brand
- Performed a variety of esthetic services, including eyelash extensions, lash lifts, brow laminations, tinting, and waxing, ensuring high-quality, personalized results through customized consultations

Cocomaya/Queenstown Public House — Bartender/Server

2023-Present

- Ranked in the top 20% of sales performers across venues, driving up to \$6,000 per shift and winning 5 consecutive sales contests through consultative upselling
- Onboarded and served 200+ guests per peak shift, memorized 100+ menu items to ensure order accuracy, boosting average tips by 35%
- Managed POS and CRM systems, processing 50+ orders per hour with zero errors while troubleshooting to keep service running smoothly
- Trained staff on new POS and service workflows, improving speed and consistency in a high-volume environment
